

BELGIAN ECONOMIC MISSION
Indonesia & Singapore
21 – 29 November 2008

Belgian Economic Mission to Indonesia & Singapore

21-29 November 2008

Organised by the regional institutions for Foreign Trade
(Brussels Export, Flanders Investment & Trade - FIT, the Wallonia Foreign Trade and Investment Agency - AWEX)
and the Belgian Foreign Trade Agency

His Royal Highness Prince PHILIPPE of Belgium

HRH Prince Philippe was born on 15 April 1960 in Brussels, Belgium, as first child of HM King Albert II and HM Queen Paola. He is first in the line of succession to the throne of Belgium and, as such, he bears the title of Duke of Brabant.

On December 4, 1999, the Prince married Miss Mathilde d'Udekem d'Acoz.

Prince Philippe and Princess Mathilde have 4 children: Elisabeth (2001), Gabriel (2003), Emmanuel (2005) and Eléonore (2008).

At the end of secondary school, which he attended both in French and in Dutch, the Prince continued his education at the Royal Military Academy from which he graduated in 1981. He then subsequently qualified as fighter pilot (1982) and as a paratrooper- and commando officer before assuming command over a paratrooper platoon. He now holds the rank of Major-General in the Armed Forces (2001).

Prince Philippe completed his academic training at Trinity College, University of Oxford (UK) and at the Graduate School of Stanford University (USA) where he took a "Master of Arts Degree" in political science in 1985.

The Prince holds an Honorary Doctorate of the Katholieke Universiteit Leuven (conferred in 2002).

As a result of the increasing number of commitments, the "Household of Prince Philippe" was created in 1992.

On August 6, 1993, by Government decision, Prince Philippe was appointed Honorary Chairman of the Belgian Foreign Trade Board (BFTB). He succeeded to his father, who had been Honorary Chairman of the BFTB since 1962. In this capacity, Prince Philippe has headed more than forty important economic missions, of which the most recent are India, Japan and Brazil (2005), South Africa, the Federation

of Russia, Canada and Bulgaria & Romania (2006), China and Bahrain & Qatar (2007), USA & Canada, Egypt and Argentina & Uruguay (2008).

On May 3, 2003, Prince Philippe was appointed Honorary Chairman of the Board of the Foreign Trade Agency, replacing the BFTB.

On June 21, 1994 he became a member of the Senate.

In addition to his various official duties, Prince Philippe concentrates on gaining more in-depth knowledge of his country, its role and its image in the world and in international relations.

The Prince is keenly interested in the situation of young people and their integration in the society of tomorrow. He therefore visits schools and universities, but also follows closely various social issues such as unemployment and the struggle against poverty and exclusion.

In May 1997, Prince Philippe was appointed Honorary Chairman of the Belgian Federal Council for Sustainable Development, created after the Conference of Rio.

In 1998 the Prince Philippe Fund was created, with the aim of fostering exchanges between citizens or organisations from all three Communities of our country.

In 2003, Prince Philippe became Honorary Chairman of BIO (Belgian Investment Company for Developing Countries).

Since 2004, Prince Philippe is also Honorary Chairman of the European Chapter of the Club of Rome and of the International Polar Foundation.

In May 2004, Prince Philippe obtained his licence as a civilian helicopter pilot. He spends his rare leisure moments at home with his family and also likes to read, especially on subjects related to the problems and challenges confronting men and women in today's society. He practises sports regularly and is keen to maintain a healthy physical condition.

HE Karel DE GUCHT
Federal Minister of Foreign Affairs

Born in Overmere on January 27, 1954
Resident in Berlare, Oost-Vlaanderen

Educational background

Master in Law, Vrije Universiteit Brussel (1976)
Secondary school education: Latin-Mathematics,
Royal Atheneum Aalst (1971)

Mandates

Lawyer Honourable
Professor European Law VUB
Member of Parliament
Minister of Foreign Affairs

Political career

Mayor of Berlare (2006-)
Minister of Foreign Affairs (2004-)
Member of Parliament (2003-)
Minister van State (2002-)
Member of the European Parliament (1980-1994)
National President VLD (1999-2004)
Member of the Flemish Parliament (1995-2003)
Senator (1994-1995)
Member of the local Council of Berlare (1989-)
National Vice-President PVV (1985-1988)
Alderman of Finance in Lebbeke (1983-1988)
National President Liberal Youth (1977-1979)
Member of the party executive PVV/VLD (1977-)
President National Liberal Student Union (1975-1977)

HE Patricia CEYSENS

Flemish Minister for Economy, Enterprise, Science, Innovation and Foreign Trade

Patricia Ceysens was born in Maaseik. She lives in Leuven since 1988 and has three sons.

Patricia Ceysens graduated from law school in 1988 at the Catholic University of Leuven. She also obtained a degree in Marketing Management from CMO (now Syntra) in 1991.

Patricia Ceysens has been a barrister in Leuven from 1988 till 1999. From 1990 onwards she practiced law in Brussels at Loeff, Claeys, Verbeke (now Allen & Overy Belgium) where she specialised in intellectual property rights. From 1989 until 1990 she also acted as an academic assistant at the law school of the KU Leuven.

Patricia Ceysens started her political career as a city councillor in 1995. In the same year she also became provincial councillor and was elected as a member of the Flemish Parliament. In 1999 Patricia Ceysens became the president of the Health Commission in parliament.

In June 2003 she became the Flemish Minister of Economy, Foreign Affairs and E-government. Since 2004 she was President of the Open VLD group in the Flemish Parliament and Vice-President of her party. From October 2007 she is the Flemish Minister of Economy, Enterprise, Science, Innovation and Foreign Trade

www.beci.be

In 2007, the Chamber of Commerce and Industry of Brussels (CCIB) and the Brussels Business Federation (UEB) decided to achieve their cooperation by a mutual image and a shared name: BECI - Brussels Enterprises Commerce and Industry. BECI has 3000 company members - SME's and large companies, Belgian and International companies - located in the Brussels' Region.

The Brussels Business Federation is the interprofessional organisation regrouping the businesses in the Brussels-Capital Region.

The Brussels Chamber of Commerce and Industry offers its services to businesses and self-employed workers in the Brussels-Capital Region.

BECI, private partner in the Brussels Export initiative, has an international department to promote foreign trade and international relations of the Brussels' businesses.

This department provides a broad range of services:

- Information: export lunches, seminars, publications, counselling;
- Promotion activities: business trips, business clubs, welcoming of foreign economic delegations;
- Administrative formalities: ATA booklets and certificates of origin.

www.vbo-feb.be

The Federation of Enterprises in Belgium (FEB) is the only multisector employers' organisation representing companies in Belgium. The FEB has 33 full members, all of which are professional sectoral federations - in addition to its applicant and corresponding members. All in all, it represents more than 30.000 businesses, of which 25,000 are small and medium-sized firms. In job terms, it represents some 1,500,000 workers.

The main activities of the FEB in Belgium are:

- promoting and stimulating entrepreneurship;
- defining common positions of Belgian employers;
- ensuring representation in many national and international advisory and administrative committees and institutions;
- acting as intermediary between employers and government, administration, trade unions, consumers,...;
- providing a flow of information to its members and the general public.

There are eight Voka - Chambers of Commerce and Industry (CCI) in Flanders. Voka - Flanders' Chamber of Commerce and Industry aims to stimulate economic activity and intends to create a framework for successful enterprise. We support the economic development of our region by lobbying, networking and offering specific services to our businesses.

Voka - Flanders' Chamber of Commerce and Industry unites more than 18,000 businesses from all sectors within the Flemish region. The size varies from start-ups or small companies to well-established multinationals with thousand employees.

We are politically independent. Every Voka - Chamber of Commerce and Industry is a private institution. Membership is not compulsory, but based on competitiveness, high value-added services, exclusive information and transparency.

As the closest, most influential and professional network of entrepreneurs and the representative organization for companies in Flanders, Voka - Flanders' Chamber of Commerce and Industry wishes to create an optimum framework for successful enterprise.

Limburg Chamber of Commerce and Industry was incorporated on the 18th of April 1860. As a CCI, we are an employers' organization creating solutions and opportunities through our core services: lobbying, networking, training, a whole array of services and both national and international projects.

There are 8 Voka - Chambers of Commerce and Industry (CCI) in Flanders. Together, with the Voka - Flanders' Chamber of Commerce and Industry, these chambers form the Voka alliance, the largest Flemish network of enterprises.

Our mission: as the closest, most influential and most professional network of entrepreneurs and the representative organisation for companies in Flanders, Voka wishes to create an optimal framework for successful free enterprise, and thus seeks to make a fundamental contribution to its region's welfare and being.

We are also a member of the Belgian Federation of CCI's and are a part of a Euregional, European and global network.

Tel +62 21 250 66 38
www.fortis.com

Fortis is an international provider of banking and insurance services to personal, business and institutional customers. The company delivers a total package of financial products and services through its own high performance channels and via intermediaries and other partners. Fortis is a leader in financial services in the Benelux region - one of Europe's wealthiest. Building on that leadership, we have developed an extensive European footprint in the retail banking market, operating through a variety of distribution channels. We offer financial services to companies, institutional clients and high net worth individuals and provide integrated solutions to the enterprise and the entrepreneur. Our unique expertise has made us a regional and in some cases global leader in niche markets, such as energy, commodities and transportation, and fund administration. We successfully combine our banking and insurance skills in growth markets in Europe and Asia, and we excel in bancassurance in several countries, like Belgium, Portugal and Malaysia.

Tel +32 3 205 22 01
Fax +32 3 205 20 32
info@haven.antwerpen.be
www.portofantwerp.com

Antwerp is the only port with readily available and congestion-free container capacity. Thanks to the newly build Deurganckdock, Antwerp increased its handling capacity substantially to 15 million t. No wonder our port shows double digit growth in containers with an estimate of approx. 9 million TEU in 2008.

Besides this strategic advantage, the port of Antwerp is the second largest European port and the market leader in conventional cargo such as steel, fruit, forest products, coffee and project cargo. We have the largest dry warehousing and chemical tank storage capacity in Europe and have the biggest chemical cluster.

The advantage of Antwerp is that it is congestion free and does not suffer from mobility problems in and around the port. Substantial efforts are being made to enlarge the existing dense network of multimodal facilities and connections so that the port's favourable geographical location in the heart of Europe's largest industrial and consumption centres can be fully exploited.

Website: www.liegeairport.com

Liege Airport, the fast growing airport.

Liege Airport is the first European airport fully focusing on full freight. In 2007, +/- 500,000 tons have been carried through it.

This low cost airport is very strategically located, right in between all major European markets. All expert services and equipments are available.

Some important companies are operating at Liege Airport: TNT, Cargo Air Lines, Icelandair, EL AL, Ethiopian Airlines, Southern Air, and ... fuel stoppers like Kalitta and Volga Dnepr. Liege Airport is also specialised in living animals and fresh products.

At less than 2 km, the « Liege Logistics » zone accomodates by important transport and logistic companies, and is directly connected to the railway.

Liege Airport is therefore a strong and dynamic partner for professionals of transport and logistic.

(arena) stands for “**Active** with **Respect** for **Environment** and **Nature**”.

We attract, develop and operate NOVEL and promising ECOLOGICAL Technologies in the field of treatment of hazardous waste, removal of contamination, energy saving or gas cleaning techniques, and we are committed to spread them.

With a creative mind, we simplify and improve our technologies to result in more economic and ecologically advanced solutions for treatment of organic and high calorific waste, sludge, medical or other toxic waste, catalytic gas cleaning, acid gas neutralisation and hot gas dust removal and for decontamination of metal tools and parts for various industries.

Arena adheres a philosophy of openness for partnerships or associations.

A.V. GUMUCHDJIAN NV is a medium sized wholesale diamond trading company based in Antwerp. The company is celebrating this year its 100 year in activity.

We specialize in polished diamonds in very high quality from smalls (1 point) to large (5cts and up). In round and classic fancy shapes (marquise, pear shape, oval and heart shape). By tradition, our company is service oriented. In other words, our service is to help the local wholesaler or jeweller to fulfill its requirements by providing the merchandise that is requested.

We are looking for long lasting business relationships and can offer various facilities to those customers who are similarly interested.

A.V. Gumuchdijan is active in South East Asia, particularly Singapore and Indonesia since 1991.

www.bekaert.com

Bekaert is an international player with its headquarters in Belgium. Our business is built on two core competences: advanced metal transformation and advanced materials and coatings. Bekaert is active in many industries, the most important of which are the automotive and construction markets.

Our products include:

For the automotive industry: steel cord for radial tire reinforcement; specialized wire products, i.e. spring wires, fine cable wires, welding wires, cables for side-window systems, wire for windshield wiper arms and blades, wire for seat-heating elements; solar-control window film; metal fiber media for diesel particulate filters.

For the construction industry: Dramix® steel fibers for concrete reinforcement, strands and wires for prestressed concrete elements, plastering mesh, cables and cable wires for elevator applications; window films.

Other products include fencing wire for agricultural applications, reinforcing wire, wire used for the packaging of pulp for the paper industry, and metal based fiber products for the polymer and petrochemical industries.

Wallonia Biotech Coaching (WBC) is an incorporated company launched in September 2006. WBC is an incubator aimed at supporting the development of spin-off, spin-out and start-up biotech companies located in the Belgian Region of Wallonia.

More specifically, its mission consists in validating company projects and in giving a continuous support during the growth and maturing of these companies. According to the needs of incubated projects, WBC provides a panel of pre-financed managerial, commercial and financial services.

Examples of these services include thorough market studies, analysis of regulatory issues, strategic advice on in/out licensing and on mergers/acquisitions, commercial representations and laboratory equipment leasing plans.

The support of WBC is planned for a maximum duration of 6 years. During this period, the evolution of incubated companies is evaluated using management tools proper to WBC and adapted to the specificities of the biotechnology sector.

Tel +32 496 50 50 51
Fax +32 3 633 00 03
info@bo-bizz.com

Bo-Vision is operating as external export manager for smaller Belgian breweries. We are covering the following markets: Japan, Korea, Hong Kong and Taiwan.

This gives the opportunity for our Asian partner to start up with relatively small quantities per brewery and offering a taste pallet which covers the Belgian beer market completely.

The breweries we represent today are De Koninck (ale beers), De Troch (lambic and fruit beers), Strubbe (red beers and organic fruit beers), De Landtsheer (Champagne beers and heavy beers), Van Eecke (wheat beers, abbey beers, strong hopped beers).

Bo-Vision is consolidator for those breweries and shipments can be sent LCL or FCL. Doing so reduces the shipping, handling and import charges.

We are looking for one importer which we will grant exclusive distribution ship in Singapore.

Fashion Design De Vincentiis NV is a Belgian company, recently founded, and is the exclusive owner of the “Armando de Vincentiis” brand. It produces and distributes prêt-à-porter collections as well as haute couture dresses.

Fashion Design De Vincentiis’ major strategic assets are top quality and excellence, both in fabrics selection and in production, for a very high level and proudly-made in Italy prêt-à-porter. This is the reason why the production is entrusted to Antica Sartoria di Sambuceto (in the Italian region of Abruzzo), the supplier for the handmade clothes. Antica Sartoria produces also for Alexander McQueen, Giambattista Valli, Valentino and for the Gucci-group.

Considering the product’s positioning, the brand “Armando De Vincentiis” targets the new luxury markets (Russia, Middle-East, China and Japan), besides Europe. The distribution is nowadays based on the ateliers in Belgium and Milan and on a selected network of multi-brand stores.

Group Jansen is a Belgian Building Group with several disciplines. During this mission we represent 2 products / services:

1. Cleanroom Systems Belgium - Cleanrooms are all about precision and complexity. Activities in operation theatres, laboratories and production units for medicines are so precise and delicate that special conditions are required. If not, the risk of contamination would become irresponsibly high and lives would be put in danger. Cleanroom Systems Belgium builds top quality cleanrooms according to the client's needs.

2. Jansen Products Raised Access Floors - Flexibility and mobility become more important every day! To ensure cost-effectiveness, building service flexibility, and occupant comfort, you must integrate building services within the structure. A raised access floor gives you the possibility to accommodate all technical supply lines in a future compatible way. We produce a suitable floor in accordance to your needs. Raised access floors are used for: Computer and IT suites, laboratories and hospitals, conference and exhibition halls, commercial offices - both new and refurbished

IBA delivers solutions of unprecedented precision in the fields of cancer diagnosis and therapy.

Diagnosis: IBA has unique expertise in the design of cyclotrons and in the production and distribution of radiopharmaceutical tracers which are used every day in hospitals to detect quickly and accurately cancer, neurological and cardiac diseases. IBA also offers dosimetry products used in many hospitals for quality assurance in X-Ray diagnosis and for patient-dose monitoring.

Therapy: IBA has developed Radiotherapy solutions and dosimetry equipment to treat cancer with the greatest accuracy. IBA is the undisputed leader in Particle Therapy, acknowledged to be the most precise and effective clinical radiotherapy method in the selective destruction of cancer cells.

Sterilization & Ionization: IBA designs electron accelerators and high power X-Ray solutions used in many industries to sterilize medical devices, to cold pasteurize food products and to improve polymer properties. Over 250 IBA Industrial accelerators are used in the world today, some for more than 40 years.

Intersoft Electronics offers a wide range of quality control tools for civil and military surveillance radar systems: radar display, monitoring and maintenance instruments; radar analysis support systems for a top-down analysis of the complete radar system; radar environment simulators creating a very realistic and repeatable environment for the radar.

Driven by user-friendly software, they will prove to be invaluable instruments for Factory and Site Acceptance of the Radar systems, for a complete periodic check-up and as a perfect daily monitoring tool for every radar engineer. They thus increase the radar's efficiency and lifetime at low cost.

We also assist in radar assessment campaigns and offer support for developing a complete radar quality program.

sales@kathy.be
www.kathy.be

Kathy Chocolaterie is specialized in making Belgian's finest chocolates. Already exporting to more than 50 countries worldwide and into it's fourth generation, our family company is able to produce a very wide range of traditional Belgian chocolates and other delights, such as seashells, pralines, truffles, speculoos, bouchées, ...

We are especially interested in the Indonesian market as we started exporting to the Middle East in the past few years with very good results. Hence we are able to deliver high quality alcohol free chocolates and we believe that we can generate very good results in Indonesia together with the right partner.

For Singapore our situation is different. We are selling approx. 50,000 € turn-over through 3 shops in Singapore, namely Candy Empire. We are happy about the sales we generate in just 3 shops, but not happy about the sales in Singapore. For this reason we are interested in meeting potential new partners in order to seek better ways to serve the market.

B - 2880 Bornem
Tel +32 3 889 17 21
Fax +32 3 889 69 13
secr@qualiphar.com
www.qualiphar.com

Qualiphar was founded in 1937. Initially, they focussed exclusively on the production of self-care medication. The aim of the founders was to relieve the workload for pharmacists: from the pharmacists for the pharmacists.

The VERLINDEN family enters in 1970 into the destitute company and starts with far-reaching diversification. This way the company knew an explosive growth in contract manufacturing. Major investments in logistics allowed quick deliveries within Belgium, the Netherlands, Luxembourg and internationally.

An R&D department guarantees developments so several products are launched every year. Key dates in Qualiphar's history are the take-over of the production unit & personnel of Warner Lambert (1987), the acquisition of Gifrer (pharmaceutical laboratory and market leader of the unidose concept) (2000) and the acquisition of SEV (Société européenne d'extraction végétale) (2003).

The international breakthrough has recently been realized as an Export Department has been founded in 2006.

The Belgian Foreign Trade Agency is a public body with a legal status. It was set up through the Co-operation Agreement concluded between the Belgian federal government and the three Belgian regional governments on May 24th, 2002.

The Agency is run by a Board of Directors and its Honorary President is His Royal Highness Prince Philippe of Belgium.

The Agency's main tasks are:

- organisation of joint economic missions
- collecting, organising and circulating information, studies and documentation on external markets on behalf of the regional export promotion organisations

The regional export organisations are the single contact point for Belgian companies.

The entire version of this brochure is also available on the website of the Belgian Foreign Trade Agency, on the following address:
www.abh-ace.org/expor/initiatives-actions/abh-ace/missions-sar/2008/indonesia-singapore/homepage.html

The Foreign Trade Department of the Brussels-Capital Region is a public body, which aims to enhance and improve the export capacity of Brussels companies.

To develop the export potential of Brussels companies, the Foreign Trade Department:

- provides information about foreign markets to Brussels companies, through its network of economic and trade attachés
- organizes trade missions and group stands of international exhibitions
- supports the prospect initiatives of Brussels companies through financial incentives

The Foreign Department of the Brussels-Capital Region guides and helps foreign companies interested in Brussels products, services and techniques, to make the right contacts meeting their demands and to find business partners in the Brussels Region.

Within the Federal Public Service FINANCE a team of experts informs and assists foreign investors and investors already established in Belgium on tax matters.

The Fiscal Department for Foreign Investments was created in 1997 and it operates under the direct authority of the Chairman of the Executive Committee of the Belgian Federal Public Service Finance.

This service of the FPS FINANCE guides and informs the foreign investor on tax matters, and assists him in his contacts with the tax authorities.

This public service works:

- free on charge on a flexible, non-bureaucratic and investor oriented basis
- everything disclosed to its officials remains strictly confidential, as they are subject to a legal and strict obligation of professional secrecy
- for tax information with regard to foreign investments in Belgium, please get in touch with us (address below).

The Federal Public Service Economy assists foreign companies in their information search concerning any relevant aspect of the investment climate in Belgium.

The Service for Foreign Investments works in close collaboration with the regional investment agencies and other federal institutions. Using direct contacts, advertisements in the specialised international press, brochures and the website www.investinbelgium.fgov.be, potential foreign investors are invited to consider the advantages of Belgium as investment location.

The service also helps foreign companies already established in Belgium to give answers to administrative or procedural questions, through our contact network of federal and regional departments and other specialised institutions.

The Flanders Investment & Trade agency promotes sustainable international business, in the interest of both Flanders-based companies and overseas enterprises. Whatever sector you are involved in, Flanders Investment & Trade will help you establish contact with the Flemish companies you are looking for. This includes not only products or services you may be sourcing, but also various types of business relationships, from joint ventures to technology transfers.

At another level Flanders Investment & Trade enhances Flanders' position as the gateway to Europe for inward investors.

The agency identifies, informs, advises and supports overseas enterprises by establishing production and research facilities, contact centers, headquarters, logistics operations and the like in Flanders, the northern region of Belgium.

Flanders is a region with legislative powers, with its own parliament and its own government.

It has broad domestic and foreign powers. For example, the Government of Flanders has competence in the field of education, the environment, public works, the economy, sports and culture, tourism, welfare policy, housing, health care, town and country planning, foreign trade and investment and scientific research. In all other areas there is a strong co-operation and co-ordination with the federal Belgian authorities.

Flanders not only conducts an autonomous domestic policy but it also has a great deal of autonomy in its dealings with foreign partners.

The Government of Flanders can conclude agreements and treaties with other countries and regions in each domain for which it has domestic powers. It has also exclusive competence for its trade and investment promotion with an elaborate network abroad.

Patricia Ceysens is Flemish Minister for Economy, Enterprise, Science, Innovation and Foreign Trade.

www.wallonia-export.be

The Wallonia Foreign Trade and Investment Agency (AWEX) is the Wallonia Region of Belgium's government agency in charge of foreign trade promotion and foreign investment attraction. The agency has a worldwide network of 105 Economic and Trade Attachés. AWEX is ISO 9001 certified since April 2002.

As a **foreign trade agency**, AWEX carries out a mission of promotion and information for the benefit of both Wallonia and the foreign business community. AWEX assists buyers, decision-makers, importers and foreign prospects by providing information on Wallonia's export potential. As an export partner for Wallonia-based companies, Awex offers a wide range of export-oriented services and activities (market surveys, organization of trade missions, trade show pavilions, export incentives, etc.).

As a **foreign investment agency**, AWEX – via its Office for Foreign Investors (OFI) – has an overall responsibility for the attraction of foreign investment in Wallonia. This includes seeking out and providing information to potential foreign investors. The Agency also offers a pro-active follow-up service to investors already established in Wallonia.

ECONOMIC PROFILE OF BELGIUM

THE HEART OF EUROPE

Belgium is a **federal Kingdom**, with three Regions (the Flemish Region, the Walloon Region and the Brussels-Capital Region) and three communities (the Flemish Community, where Dutch is spoken, the French Community and the German Community).

Belgium has a population of 10.584.534 inhabitants (as of 1.01.07) and is one of the most densely populated states in Europe. Brussels is the capital of Europe, the site of the headquarters of the European Commission, the Council of Ministers and the European Parliament. Other major international organizations, such as NATO, are also located in Brussels. As a result, Brussels is the number two city in the world (after Washington) in terms of its number of accredited journalists, and fourth in terms of the number of international meetings and seminars held there.

With a surface area of 30,500 km², Belgium is one of the smallest Member States in the European Union. Nevertheless, it is a significant player in the world economy. GDP in 2006 was € 392 billion, making Belgium the 18th economy in the world. Belgium is a high income country, with a GNI (gross national income) per capita of \$ 38,600 (World Bank data).

According to the World Trade Organization (WTO), in 2006, Belgium was the 10th exporter of goods and the 14th exporter of services globally. Belgium's share in world merchandise exports was 3.1% in 2006, while its share in world imports of goods was 2.9%. Belgium is the world leader in terms of export per capita.

Belgium was also the 4th recipient of Foreign Direct Investment flows in the world in 2006 (UNCTAD World Investment Report 2007). FDI into Belgium more than doubled to \$72 billion, raising its total FDI stock to \$603 billion, which was more than the country's GDP at the end of 2006. The continued presence in Belgium of TNC "coordination centres", as well as the new tax incentives that entered into force in January 2006 (notional interest deduction) may have contributed to that increase. Belgium's FDI outflows also increased in 2006, making it the 7th largest source of FDI worldwide.

Trade relations with Indonesia

Belgian exports to Indonesia	2007	12 months	270.3 million EUR
	2007	6 months	128.5 million EUR
	2008	6 months	128.0 million EUR
Belgian imports from Indonesia	2007	12 months	1,081.7 million EUR
	2007	6 months	531.7 million EUR
	2008	6 months	438.6 million EUR

Trade relations with Singapore

Belgian exports to Singapore	2007	12 months	545.7 million EUR
	2007	6 months	254.9 million EUR
	2008	6 months	250.4 million EUR
Belgian imports from Singapore	2007	12 months	1,085.8 million EUR
	2007	6 months	531.5 million EUR
	2008	6 months	520.7 million EUR

Belgium is indeed your ideal partner because of its strategic location in the heart of Europe, its flourishing economy with stable growth and the unwavering confidence of consumers and investors.
