HRH PRINCE PHILIPPE OF BELGIUM

HRH Prince Philippe was born on April 15, 1960, in Brussels, Belgium, as the first child of HM King Albert II and HM Queen Paola. He is first in line for succession to the throne of Belgium and, as such, bears the title of Duke of Brabant.

On December 4, 1999, the Prince married Miss Mathilde d'Udekem d'Acoz.

On October 25, 2001, Princess Mathilde gave birth to a daughter, Princess Elisabeth. Her brother, Prince Gabriel, was born on August 20, 2003. On October 4, 2005, Princess Mathilde gave birth to Prince Emmanuel. Princess Eléonore, the fourth child, was born on April 16, 2008.

At the end of secondary school, which he attended both in French and Dutch, the Prince continued his education at the Royal Military Academy, where he graduated in 1981. He then subsequently qualified as a fighter pilot (1982), a paratrooper and commando officer before assuming command over a paratrooper platoon. The Prince's military career further led him to his current rank of Lieutenant General and Vice Admiral in the Armed Forces (as of March 2010).

Prince Philippe completed his academic training at Trinity College, University of Oxford (UK) and at the Graduate School of Stanford University (USA), where he completed a Master of Arts Degree in political science in 1985.

The Prince holds an Honorary Doctorate from the Katholieke Universiteit Leuven (2002).

As a result of his increasing number of commitments, the "Household of Prince Philippe" was created in 1992.

On August 6, 1993, by government decree, Prince Philippe was appointed Honorary Chairman of the Belgian Foreign Trade Board (BFTB). He succeeded his father, who had been Honorary Chairman since 1962.

In this capacity, Prince Philippe has headed more than 40 important economic missions, the most recent being to the United States of America (Seattle) & Canada (Vancouver), Egypt, Argentina & Uruguay and Indonesia & Singapore (2008); Mexico & Panama, the Republic of Korea, the Kingdom of Saudi Arabia and Morocco (2009); India, Brazil, Kazakhstan and Ukraine

(2010) and, just recently, the Russian Federation, the United States of America, the People's Republic of China and Chile (2011).

On May 3, 2003, Prince Philippe was appointed Honorary Chairman of the Board of the Foreign Trade Agency, replacing the BFTB.

On June 21, 1994 he became a member of the Senate

In addition to his various official duties, Prince Philippe concentrates on gaining more in-depth knowledge of his country and its role and image in the world and international relations.

The Prince is keenly interested in the situation of young people and their integration in the society of tomorrow. He regularly visits schools and universities, but also closely follows such important social issues as unemployment and the struggle against poverty and exclusion.

In May 1997, Prince Philippe was appointed Honorary Chairman of the Belgian Federal Council for Sustainable Development, created after the Conference of Rio In 1998, The Prince Philippe Fund was created, with the aim of fostering exchanges between citizens and organisations across all three Communities of Belgium.

In 2003, Prince Philippe became Honorary Chairman of BIO (Belgian Investment Company for Developing Countries).

Since 2004, Prince Philippe has also served as the Honorary Chairman of the European Chapter of the Club of Rome and of the International Polar Foundation.

In May 2004, Prince Philippe obtained his license as a civilian helicopter pilot.

He spends his rare leisure time at home with his family and enjoys reading, especially on subjects related to the problems and challenges confronting men and women in today's society. He is an avid sportsman and is keen on maintaining a healthy physical condition.

HE DIDIER REYNDERS

Deputy Prime Minister Minister of Foreign Affairs Foreign Trade and European Affairs

Born in Liège on August 6th, 1958 Married-4 children

BELGIAN VIETNAMESE ALLIANCE

The Belgian Vietnamese Alliance (BVA) was created in June 2011 to reinforce the economic, social and cultural ties between Belgium and Vietnam. In the first six months of its operations, the BVA has organised meet and greets with CEO's of major Vietnamese companies, co-organised and participated in several seminars and assisted Belgian companies and entrepreneurs in getting useful contacts in Vietnam. In addition it has prided itself in organising a range of cultural activities, opening Vietnamese language classes, and raising money for social causes.

The Belgian Vietnamese Alliance is a dynamic organisation, managed by a team of dedicated Belgian and Vietnamese volunteers with a variety of backgrounds and experiences. Steering is moreover provided by a board of diligent (ex) ambassadors and ministers.

All information, including on the Vietnamese language classes, can be found on www.belvietnam.be.

BELGIAN ECONOMIC MISSION

CHAMBER OF COMMERCE & INDUSTRY BELGIUM-VIETNAM (CCIBV)

Chamber of Commerce and Industry Belgium-Viêtnam (CCIBV)

About us: Set up more than 15 years ago by a group of leading enterprises pioneering the Vietnamese promising market. Our partnership with other economic and financial associations as well as support of Authorities enable us to contribute to improve business and investment opportunities between Belgium and Vietnam.

Our Mission: We are dedicated to connect people and their projects providing valuable business networking, business lobbying advices, trade and legal expertises, specific information and periodical events and forum as well as internship and training.

Our challenge is to provide added value to your own experiences.

No matter who you are, our strength is to be in position to serve either important corporate or SME.

BE HEARD!

FEDERATION OF ENTERPRISES IN BELGIUM - FEB

The Federation of Enterprises in Belgium (FEB) is the only multi-sector employers' organisation representing companies in Belgium. FEB has 35 full members, all of which are professional, sectoral federations – in addition to its applicant and corresponding members. All in all, it represents more than 48,000 businesses, of which 41,000 are small or medium-sized firms. In terms of jobs, FEB represents approximately 75% of total private sector employment.

The main activities of the Federation of Enterprises in Belgium are:

>> Promoting and encouraging entrepreneurship;

- >> Defining common positions of Belgian enterprises;
- Ensuring representation in many national and international advisory and administrative committees and institutions;
- Acting as an intermediary between enterprises and government, administration, trade unions, consumers, etc.;
- Providing a flow of information to both members and the general public.

Rudi THOMAES

FLANDERS INTERNATIONAL TECHNICAL AGENCY (FITA) promotes the development of a sound infrastructure and logistics in other countries and regions that will provide an acceptable degree of mobility and a liveable environment.

The main aims of FITA are:

To support engineering companies, building contractors and suppliers by putting governmental experts available to fulfil international assignments;

- >> To organise tailor-made visits and trainings in Flanders;
- To organise thematic missions (infrastructure, environment, logistics) to partner countries together with the members of the private sector: the professional federations ORI, VCB, VMD-I, UNIZO International.

VITO - FLEMISH INSTITUTE FOR TECHNOLOGICAL RESEARCH

VITO, vision on technology

VITO (Flemish institute for technological research) is a leading independent European research and consulting centre which provides intelligent and high quality solutions, offering a competitive advantage to large and small companies. It also provides objective research, studies and advice enabling industry and government to establish future policies. VITO's research finds its application in sustainable process and production technologies or cleantech, environment, energy efficiency, renewable energy, smart grids, advanced material and

analysis techniques, secondary materials, healthcare, etc., as well as in mapping and monitoring the effects of climate change on the one hand and mitigation on the other hand. It is obviously not only VITO's aim to map climate change and all its consequences, but certainly also to develop measures to prevent this change. Cleantech offers the solution.

VITO counts approximately 600 highly qualified employees and it's turnover was nearly 90 million euro in 2010.

Francis VANDERHAEGHEN DIRECTOR

VOKA - CHAMBER OF COMMERCE AND INDUSTRY EAST-FLANDERS

VOKA Chamber of Commerce East Flanders (founded 1729) aims to be the most representative, leading, interprofessional and independent employers' organisation in East Flanders. It currently has about 3,000 members, representing 60% of the added value of companies located in the province of East Flanders. VOKA East Flanders is part of VOKA Flanders, representing more than 18,000 companies in Flanders, Belgium.

Voka Chamber of Commerce provides following services for its members:

>> Lobbying with local and regional governments;

- Services for our member companies;
- Networking activities;
- Internationalisation services & activities;
- Training & education.

With the Compass Vietnam project Voka guides you on an intense and qualitative way in doing business with Vietnam. This is done through individual coaching by Vietnam experts, workshops, seminars and collaboration with the Vietnamese Chamber of Commerce.

Geert MOERMAN
MANAGING DIRECTOR VOKACHAMBER OF COMMERCE EASTFLANDERS

VOKA - CHAMBER OF COMMERCE AND INDUSTRY LIMBURG

Voka - Limburg Chamber of Commerce and Industry was incorporated on the 18th of April 1860. As a CCI, we are an employers' organisation creating solutions and opportunities through our core services: Lobbying, networking, training, a whole array of services and both national and international projects.

There are eight Voka – Chambers of Commerce and Industry (CCI) in Flanders. Together, with the Voka – Flanders' Chamber of Commerce and Industry, these eight Chambers form the Voka alliance, the largest Flemish network of enterprises, representing more than 18,000 companies.

Our mission: As the closest, most influential and most professional network of entrepreneurs and the representative organisation for companies in Flanders, Voka wishes to create an optimal framework for successful free enterprise, and thus seeks to make a fundamental contribution to its region's welfare and well being.

We are also a member of the Belgian Federation of CCI's and are a part of a Euregional, European and global network.

We are spanning the globe for our companies.

VOKA - CHAMBER OF COMMERCE AND INDUSTRY MECHELEN

There are 8 Chambers of Commerce and Industry (CCI) in Flanders. All are private institutions and consequently membership is not compulsory. Together with the Flemish Employers' Association, these 8 Chambers form the Voka alliance (politically independent) which unites more than 18,000 businesses from all sectors within the Flemish region. This alliance represents the largest Flemish network of enterprises, 65% of the private employment and 66% of the added value produced in Flanders. Voka supports the economic development of this region by lobbying, networking and offering tailor-made services to small, medium and large businesses.

The regional CCI of Mechelen employs 18 people and serves over 1,200 companies from various industries and size in the district of Mechelen. The main business sectors that stress the economic importance of this region are: pharmacy, logistics (one of the biggest logistic hubs of Western Europe), ICT, B2B service sector, construction and food (Mechelen has the largest co-operative society as a vegetable auction in Europe).

Voka is part of the global network of Chambers of Commerce and Industry, the oldest and largest business network worldwide.

FINANCIAL INSTITUTIONS

BELGIAN CORPORATION FOR INTERNATIONAL INVESTMENT (BMI-SBI)

BMI-SBI is a semi-public investment company whose main objective is the medium to long term co-financing of foreign investments by Belgian companies. Its major shareholders are Belgian public institutions as well as private companies such as BNP Paribas Fortis, ING and Electrabel.

Our activities are oriented towards the financing of new subsidiaries of Belgian companies worldwide but also include acquisitions or the expansion of existing foreign subsidiaries. Since its establishment in 1971, BMI-SBI has supported more than 300 Belgian foreign investment projects in over 50 countries worldwide.

BMI-SBI mainly takes minority equity participations in these foreign projects and/or provides quasi-equity financing such as long term subordinated loans. The average financing amount ranges between € 0.5 to 2.5 million while the term is usually between 5 to 10 years. For projects in emerging markets, also larger amounts are feasible, i.e. € 10 to 15 million or more, and this via our European partners of the EDFI network.

Christophe DENIS
SENIOR INVESTMENT
OFFICER

BNP PARIBAS FORTIS

BNP Paribas is one of the six strongest banks in the world according to Standard and Poor's and the largest bank in the eurozone by deposits. The Group has a presence in more than 80 countries and more than 200,000 employees, including 160,000 in Europe. In its Corporate & Investment Banking and Investment Solutions activities, BNP Paribas also enjoys top positions in Europe and solid and fast-growing businesses in Asia.

BNP Paribas Fortis is one of the main Banks of the BNP Paribas group. It offers the Belgian market a comprehensive package of financial services for private individuals, the self-employed, professionals, SMEs and public organisations. The bank also provides wealthy

individuals, corporations and public and financial institutions with custom solutions for which it can draw on BNP Paribas' know-how and international network.

Present in Vietnam since the nineteenth century, BNP Paribas has maintained a continued presence in the country. In November 1992, BNP Paribas Ho Chi Minh City Branch was one of the first foreign banks to be granted a Full Banking Licence for its banking activities. The Ho Chi Minh City Branch assumes the Corporate Clients coverage of the Central and Southern Regions and handles nationwide all banking operations in Vietnam Dong and foreign currencies for its clients in Vietnam.

ONDD - THE BELGIAN EXPORT CREDIT AGENCY

ONDD, the Office national du ducroire | Nationale Delcrederedienst, is the Belgian public credit insurer with a mission to promote international economic relations. ONDD performs this task as an autonomous government institution enjoying a state guarantee.

ONDD insures companies and banks against political and commercial risks relating to international commer-

cial transactions, for example regarding capital goods and industrial projects, and contracted works and services. For these risks, ONDD can also work alongside banks through risk sharing schemes. ONDD also insures against political risks relating to foreign direct investments and directly finances commercial transactions of limited proportion.

Gert VAN MELKEBEKE HEAD OF BUSINESS DEVELOPMENT AND PRODUCTS

PORT AUTHORITY ZEEBRUGGE

PORT OF ZEEBRUGGE

Zeebrugge is one of Europe's prime container and roro ports and handles nearly 50 million tonnes of cargo every year.

The port predominantly handles container cargoes on the Europe – Middle East – Far East route. In addition Zeebrugge has developed a European network for feeder traffics to convey box cargoes to all major European destinations.

Other core businesses in Zeebrugge include roll-on/roll-off traffic, conventional cargoes, liquefied natural gas,

cruises and last but not least the traffic of new cars and high & heavy cargoes. The shortsea network assures up to 20 daily links to destinations in the UK, Ireland, Scandinavia, the Baltic and Southern Europe.

The sheer multitude of transport links by ferry, container carrier, feeder ship, inland navigation barge, rail and road makes the port an ideal spot to set up European Distribution Centres.

Zeebrugge is indeed more than a mere maritime crossroads: it is foremost an ultramodern logistic platform to serve the Vietnamese markets with excellence.

PORT OF ANTWERP

Antwerp: a reliable partner in your supply chain

The Port of Antwerp is the gateway to Europe, through which almost 190 million tonnes of cargo flow every year. Antwerp is the second largest port in Europe for international maritime traffic and strategically located in the heart of Europe with the fastest, most efficient connections to the major industrial and consumer centres of Europe.

Antwerp's central location within North-West Europe makes it a preferred choice for European distribution centres. Thanks to its enormous storage capacity (over 545 ha cov-

ered warehouses), the port acts as the supermarket of Europe where all types of products can obtain the specialised and customised handling and storage they require.

Being the second largest container port of Europe, Antwerp does not only specialise in containers alone, but the emphasis is also on general cargo such as steel, fruit, forest products, cars, foodstuffs and project cargo. Moreover, Antwerp is the largest petrochemical cluster in Europe.

The Port of Antwerp is in permanent operation 24 hours a day, 365 days a year. Proof that every customer's goods are in safe hands.

Eddy BRUYNINCKX CEO

HIGHER EDUCATION INSTITUTIONS

ARTEVELDE UNIVERSITY COLLEGE GHENT

Artevelde University College Ghent (12,000 students; 1,052 staff) is a knowledge centre for education, research and services, where students, collaborators and strategic partners cooperate in a stimulating environment. Students and collaborators develop their talents in an internationally oriented university college focused on the future. The university college educates professionals whose creativity, innovative way of thinking and sense of entrepreneurship are able to cross borders. Artevelde University College Ghent aspires after excellence and durability and is stimulated by its collaborators to do so.

Artevelde University College Ghent offers different international courses in English: Cross Media Management; RIBA or Raising Business Awareness; MOCOMA or Modules on Communication Management; International Course on Health Care issues: Health in a changing world; International module on paediatric rehabilitation; Care and detect: Observation and management of premature and newborn babies.

Artevelde University College Ghent is a member of Ghent University Association.

CATHOLIC UNIVERSITY OF LOUVAIN (UCL)

The Louvain Drug Research Institute is a leading Belgian Academic Centre for Discovery and Development of Drugs (basic and applied research). The programs encompass the empiric and rational design of new active molecules, the study of their pharmacological profile, their metabolism and toxicity, their formulation, and the optimisation of their use. These research projects are supported by two technological platforms: mass spectrometry analyses and pre-clinical magnetic resonance. The Institute cooperates actively with the Socialist Republic of Vietnam for the optimised use of antibiotics and

the development of clinical pharmacy in hospitals. In parallel, programs are being launched for the discovery of novel antibiotics and new means of fighting against microbial resistance.

CIRI-COMMITTEE OF THE INTERUNIVERSITY COUNCIL OF THE FRENCH-SPEAKING REGION (CIUF)

The CIRI (Inter-University Committee for International Relations) is one of the committees of the CIUF, a platform bringing together the representatives of universities, government, student organisations, trade unions, businesses, etc. The current President of CIUF is Professor Bernard Rentier, Rector of the ULg - University of Liège.

The CIRI brings together the Vice-Rectors in charge of International Relations and the Directors of the International Relations' Departments from all the Belgian French-speaking universities. Its main task is to

strengthen a concerted policy of promotion of universities at international level, to share information on the internationalisation of higher education, to develop and implement joint activities and representation at international level, and to participate in international meetings and events such as visits abroad.

Serge JAUMAIN PRESIDENT

FRS-FNRS SCIENTIFIC RESEARCH FUND

The FNRS (Fonds de la Recherche Scientifique – Fund for scientific research) aims at developing the scientific research that is not done through initiatives of the researchers. It favours the production and development of knowledge by supporting the individual researchers on the one hand, and by financing research programs in laboratories and facilities located mainly in the universities of the Walloon-Brussels Federation on the other hand.

The financial support of the FRS-FNRS is only based on scientific excellence is provided in different ways:

- Temporarily or permanent payment of individual researchers:
- >> Financing research teams;
- Granting allowances and credits in favour of scientific exchanges;
- Allocating scientific awards.

GENERAL COUNCIL OF UNIVERSITY COLLEGES

The University Colleges and Universities of Applied Sciences offer higher education in one or two cycles for almost 75,000 students in eight fields of study: agronomy, applied arts, economics, paramedicine, teacher training, sociology, technology and translation-interpretation.

The one-cycle courses (3 years) give students a vocational qualification that culminates with the award of a bachelor's degree. They cover 180 ECTS and put a major focus on integrating students into working life. The two-cycle courses (5 years) have a university level. They offer advanced scientific and technological train-

ing. The first 180-ECTS cycle takes three years and leads to an "academic" bachelor's degree. The second 120-ECTS cycle leads to a master's degree.

GHENT UNIVERSITY (UGent)

Ghent University is one of the leading institutions of higher education and research in the Low Countries (Belgium & The Netherlands) with 32,000 students and 7,100 staff members. Located in Flanders, the Dutch-speaking part of Belgium and the cultural and economic heart of Europe, Ghent University is an active partner in national and international educational, scientific and industrial cooperation. Both on the regional and international level Ghent University has developed an extensive network.

In line with the Flemish university cooperation strategy with Vietnam, Ghent University endorses the main

axes of the latest Socio-Economic Development Plan in Vietnam 2011-2015 (SEDP), namely a sustainable economy at high growth rate; increasing the content of science and high technology in products; improving and enhancing the quality of education, training and human resources... Ghent University has been collaborating with Vietnamese universities and research centres for over 20 years. Main areas of activity are food sciences (food safety, aquaculture, chocolate technology), environmental sciences (mangrove restoration), educational sciences, human & animal health sciences.

UNIVERSITY OF BRUSSELS (ULB)

The University of Brussels (ULB), with its 11 Faculties and two Schools and Institutes, is not just multicultural but also a comprehensive university covering all disciplines and all study cycles.

With 3 Nobel Prizes, 1 Fields Medal, 1 Abel Prize, 3 Wolf Prizes, 7 European Research Council grants, 2 Marie Curie Awards and many major national prizes, the ULB is also a major research university of worldwide standing in the academic community.

It meets up its social, societal and scientific responsibilities with great commitment, combining broad access to higher education with high level research, and through its role in furthering economic development in the regions where it

is located (Brussels and Wallonia). The ULB also has a teaching hospital (the Erasme Hospital), a cancer institute (the Bordet Institute), and an extensive hospital network.

For about a decade now, the university has been actively involved in maximising research potential in both Brussels and Charleroi, where it has set up a biotechnology pole around its renowned Institute for Biology and Molecular Medicine (IBMM) & Institute of Medical Immunology (IMI).

Founded on the principle of free-thinking, which advocates independent reasoning and the rejection of dogma in all its forms, the ULB has remained true to its original ideals – an institution free from any form of control which is committed to defending democratic humanist values.

UNIVERSITY OF LIEGE (ULG)

A university offering a full spectrum of disciplines and excellence in research.

Ulg - a 193-year-old university- is a French speaking comprehensive university in Europe with 9 Faculties, 1 School and 1 Institute, spread over 4 campuses. All faculties offer educational programmes at bachelor and master level in all areas of knowledge, as well as research programmes. It is fully integrated in the Bologna process and applies the best European standards for Higher Education. The teaching offered to its 21,000 students -23% of whom come from foreign countries- is well adapted to a changing world and the expectations of the modern job market.

An innovator in terms of techniques as well as engineering, the university has strong expertise in a variety of fields, including environmental studies, life sciences, biotechnologies, earth sciences, space studies, entrepreneurship, logistics, etc.

More than half of the university budget is devoted to research projects where excellence is a must. Interdisciplinary and internationalisation are keywords in the research units. Ulg has been awarded the EU label HR Excellence in Research.

ULg brings together education, research and professional training, and has helped launch spinoff companies in many fields, making it a driving force of the area's economy.

UNIVERSITY OF MONS (UMons)

The University of Mons is the result of the association of the Faculty of Engineering and the University of Mons-Hainaut.

Operational as of 2009-2010, the University of Mons offers forty degree programmes in its six faculties (Faculty of Architecture and Town Planning, Faculty of Medecine and Pharmacy, Faculty of Engineering, Psychology and Education, Faculty of Sciences, Translation and Interpretation - EII, Warocqué Faculty of Economics and Management) and three institutes (Institute for Social sciences, Institute for Legal Sciences).

The University looks back on a tradition of 170 years of knowledge accumulated in each of its faculties and is perfectly integrated into the social, economic and cultural life of the region.

UMONS is well integrated in the town of Mons, the capital of Hainaut. The city has a secular tradition of openness and is the cultural capital of the area. Mons is less than an hour's drive from Brussels, Charleroi and Lille. The train ride from Paris is 75 minutes.

Pierre DEHOMBREUX VICE-RECTOR INTERNATIONAL RELATIONS

UNIVERSITY OF NAMUR (FUNDP)

Situated in the Southern, French-speaking part of Belgium, at the heart of Europe, the FUNDP (University of Namur) comprises six Faculties, offering some forty academic programmes. It welcomes about 5800 students and carries out research covering the main fields of knowledge, ranging from ethics to nanotechnologies, from linguistics to computer science, from human rights to veterinary science, and so on.

AIRDECK INTELLIGENT FLOORSYSTEMS

Our company is the inventor and international patent holder of the innovative lightweight concrete floor system Airdeck. It offers savings of raw materials and full recyclability as well as a wide range of total building concept benefits, including architectural design freedom, building strength and stability, technical system flexibility along with building hygiene, safety, noise and comfort advantages. Proven major energy savings, up to 90% on your energy bill, can be realised when used in combination with concrete core activation. By design, it is easy to incorporate the advanced technology of concrete core activation during construction.

Ewald HOUBEN
CHIEF EXECUTIVE OFFICER

ALTECH

The social enterprise Altech has more than 20 years of experience in designing and manufacturing water treatment systems adapted to the rural context of southern countries. The firm is a member of the social entrepreneurship network and received various awards, such as the gold medal at the "International Exhibition of Inventions of Brussels" for its Hydropur plant, as well as the Future Generation Award given by HRH Prince Laurent of Belgium, as a recognition of its strategy combining R&D with industrial production and a sustainable approach of its projects.

Altech always provides its water treatment technologies through integrated projects which include technical studies, installations, project monitoring and technical skills transfer, to make rural communities as autonomous as possible.

AMB-ECOSTERYL

AMB is a private Belgian company founded in 1947 and specialised in manufacturing machines for the environment and recycling field.

AMB has designed a special device for contaminated medical waste treatment.

This patented device, called "Ecosteryl", allows the disinfection in a continuous process through a microwaves system.

During this process, wastes are shredded and heated to a maximum temperature of 100°C. The system is designed to work in continuous process and allows large capacity of treatment of 75 (Ecosteryl 75), 125 (Ecosteryl 125) or

250 kg per hour (Ecosteryl 250).

Once treated through the system, hazardous medical wastes are falling into the same category as household rubbish.

The system is authorised and homologated by French Ministry of Health, Pasteur Institute, European public authorities...

The Ecosteryl system is available for use by companies specialised in transportation and treatment of medical waste as well as public authorities, municipalities...

Ecosteryl is designed, manufactured and sold by AMB.

AMOS

The company AMOS was launched in 1983 on the basis of the mechanical expertise of "Ateliers de la Meuse" and on the optical know-how of the Institute of Astrophysics from the University of Liège.

About 80 employees are specialised in design and manufacturing to a very high accuracy opto-mechanical systems. They are mainly delivered to space industry as well as professional astronomy and divided into three categories:

Equipment to test satellite on the ground is used to qualify payloads in the flying conditions. These are vacuum chambers that create an outer space environment, thermal panels to simulate flying temperatures or fake stars (collimators) identical to those observed after the launch.

- On board equipment flying on board satellites, probes or the Space Shuttle. They are mainly mirrors, mounts, telescopes, structures or mechanisms.
- Equipment for professional astronomy ordered by worldwide astronomers, these are telescopes, components or instruments installed within the largest observatories.

BOM-BE

Bom-Be is located in Belgium, a country where two wars raged and where the legacy of Unexploded Ordnance (UXO) and Explosive Remnants of War (ERW) is imminent. Our specialists have extensive experience with clearance of areas contaminated with ordnance including bombs and landmines and operate both on land and underwater. Bom-Be has branches located in France and the Netherlands, and our highly trained former military EOD-personnel has been deployed in the Baltic, Bosnia-Herzegovina, Cambodia, Congo, Croatia, the Gulf, Kosovo, Somalia, Laos and Lebanon. The legacy of Unexploded Ordnance (UXO) on areas of former

military conflict and military training areas, constitute not only a safety risk but can also delay construction programmes or even render land unusable. Through the safe removal of UXO's, development can continue safely and without the possibility of costly delays. With both (historical) desk studies and geophysical survey techniques, Bom-Be offers a holistic, pragmatic and cost effective approach to pollution and clearing battlefields and environmental remediation of unexploded mines and ordnance (UXO).

DENIS-PLANTS

Denis-Plants was founded 35 years ago by Mr and Mrs René Denis. They were specialised in the young plant production of Schefflera. Later on, they started with the weaning of tissue culture plants. In 1997 Denis-Plants bought its own tissue culture laboratory in Brussels. Today Denis-Plants is leader in the tissue culture plants of Calathea, which are exported worldwide. Also Spathiphyllum, Cordylines, orchids and perennials are in the young plant assortment. (see www.denis-plants.com).

With an own breeding-program in cooperation with I.L.V.O., Denis-Plants introduced some years ago the

Bicajoux assortment, which includes several natural flowering Calathea, a worldwide novelty in horticulture! (see www.bicajoux.com). Since 2005 Denis-Plants started a close and exclusive cooperation with a Vietnamese laboratory in Dalat (Lam Dong province). The purpose of this cooperation is to develop the protocols and the knowhow in Belgium, to send the prototypes for production to Vietnam for further multiplication and to send the coarse products back to Belgium. In Belgium, the last process steps are made in order to deliver the finished products all over the world. In 2011 Denis-Plants was elected "grower of the year" in Belgium.

DE WOLF & PARTNERS

De Wolf & Partners was founded in 1998 and has rapidly grown to become one of the few Belgian corporate law firms with a truly international reach. The firm counts more than 50 lawyers spread over 4 offices and providing legal services and assistance covering most if not all of the needs of its corporate clients with an emphasis on commercial contracts, corporate transactions (M&A), intellectual property rights, employment law and European competition law.

In 2007 De Wolf & Partners became the first Belgian law firm to be officially registered as a foreign law firm in China. Today our Shanghai office counts 15 lawyers

from various nationalities whose main business is to provide advice and assistance to foreign investors to help them tackle the legal and administrative hurdles facing their Chinese business ventures.

Owing to the international experience of its partners and its membership of the European law firm's network of Osborne Clarke Alliance, the firm has continuously strengthened its ability to serve a foreign clientele with regard to their investments in the Benelux countries.

GRAND-PLACE CHOCOLATE

Grand-Place®, "Gardener of Chocolate™", is an independent Belgian chocolate group offering a full range of couverture chocolate, compound chocolate and decorations to professional users of chocolate and cocoa products (B2B).

The group is currently having its products manufactured in Belgium, Vietnam and Japan with distributors and sales offices in Cambodia, the USA, Canada, South Korea, Taiwan, Thailand and China.

As a member of the Grand-Place® Group, Grand-Place® Vietnam (GPV) first came into existence in 1994 as a

representative office and had its first factory established in VISP, Vietnam in 2001.

Nowadays, working from his second factory, officially opened early 2009, with a first capacity of 3000 MT, GPV is also involved in an ongoing program focusing on improving the cocoa flavour profile and cultivation of the Vietnamese Cocoa beans.

GPV is very proud to implement a rare business model "from beans to bar" in the country of origin, a full vertical integration that link the farmers and their beans to the confectionery industry in Vietnam.

JEAN VERHEYEN

Jean van den Hove, Albert Verheyen's great-grandfather, took over the portfolio of Lippmann & Kracht, a Brussels-based insurance agency in 1919. This marked the beginning of a long and fruitful partnership between an underwriting agency and its insurance market.

Over decades, JEAN VERHEYEN SA developed a true feeling and enviable skills when it comes to assess the risks of worldwide transportation of cargo. The agency has contributed, together with other insurers, towards building the high reputation of the Belgian marine insurance market today.

Recently, JEAN VERHEYEN SA as member of AXA Group, has expanded its range of insurance products by offering coverages for Private Patrimonies, Art Galleries, Exhibitions, Museums and Jewellers Block. This enables JEAN VERHEYEN SA, to offer a special insurance to a special client, and this at an attractive price.

The shareholders of JEAN VERHEYEN SA are in majority the AXA Group as well as the Verheyen family.

MEKONG PLUS

Development only works if everybody is involved!

We work in Vietnam and Cambodia.

We aim for integrated community development. Three main keys underlie each action:

- Aiming at the poorest, who often do not even have one third of a euro per person per day;
- Working with a strong involvement of everyone in the community;
- Leading low cost and sustainable actions.

Our actions are varied: micro-credit, agricultural techniques, training of para-veterinarians, protection of the environment and forests, development of the employment and the handicraft, fair trade, theater-action to promote hygiene and to fight against alcoholism, protection of the forest and plantations.

The programs cover today about 550 villages, 40 of which are in Cambodia. The direct beneficiaries are every year around 320,000: children of the kindergartens and primary schools; women and peasants; very poor families; quilters.

In Belgium and in France, teams of volunteers and sympathisers organise several events every year: cultural or sporty, with movie projections and discussions.

RECTICEL

Recticel is a well-known polyurethane foam manufacturer. The Belgian group, which is listed on NYSE Euronext in Brussels, is specialised in polyurethane products for a large number of applications. In the early 1950's Recticel started, as one of the first companies worldwide, with the manufacturing of polyurethane foam and was as such a pioneer in this highly specialised industry. Activities are divided into four business lines: Automotive, Flexible Foams, Bedding and Insulation.

Recticel Flexible Foam's principal activities cover the manufacture, conversion and marketing of flexible polyurethane foam to a wide range of markets.

The business line mainly concentrates on semi finished polyurethane foam products and components in B2B areas but also creates finished PU foam products in some segments for distribution channels.

Recticel Flexible Foams is active worldwide and has flexible polyurethane foam production plants, flexible PU foam converting plants and sales offices in many countries.

As market leader in most of its activities, Recticel provides work for 11,600 employees in 120 establishments in 27 countries.

RONVEAUX

RONVEAUX is a Belgian family business of 450 people.

In Belgium and neighbouring countries, it is active in 3 fields:

- Construction through engineering and production of precast, pre-stressed concrete structures and floors;
- Electricity through distribution lines for high and low tensions, television, fibre optic and network installations of electrical controls, telecommunication and public lighting;

It is also a part of a cooperation agreement in Vietnam to develop precast concrete technologies.

SBE

SBE nv is a dynamic engineering office in Sint-Niklaas, which is in the proximity of the port of Antwerp. We are specialised in the design of harbour constructions, steel structures, civil and structural engineering and geotechnical design. With over 30 years' experience, predominantly large infrastructure projects, the project managers are the driving force of a young and dynamic team capable of executing a large variety of projects. The projects are designed with an emphasis on quality and ease of construction, with respect to economic viability. SBE uses advanced calculation methods, allowing us to design very specialised, innovative and complex structures.

Our extensive language skills (fluent Dutch, English, French and German) combined with a strategic location in the centre of Europe allow us to offer our services internationally. We have past experiences in several European countries, Ukraine, Korea, Nigeria and Panama.

SITOMECA

Steel has always been the core business of Sitomeca for more than 80 years. Today Sitomeca is considered as 'the reference' for the manufacturing of flat and corrugated steel sheets used as moulds in the production of fibre-cement and wood-cement panels such as these from Eternit, Saint Gobain and many others. Presently, the company manufactures over 85 different profiles.

Sitomeca's unique specialty is the production of frames in stainless steel (spacers) which are used in the autoclaves.

Sitomeca has researched and developed a new reinforced resin mould making it possible to faithfully reproduce wood, slate or stone on fibre-cement or woodcement panels. These panels are being used by the manufacturer as panels for roofing, boarding and interior decoration.

A systematic prospection has allowed Sitomeca to develop business throughout the world. Sitomeca is committed to providing high quality standard and innovative products developed to meet future market requirements.

THE BELGIAN CHOCOLATE GROUP

Founded in 1956, The Belgian Chocolate Group (BCG) is a well-established supplier and exporter of premium chocolate products, offering high quality at attractive prices. Our wide range of products, which form a solid base for our brand "The Belgian", includes Chocolate Seashells, Cocoa Dusted and Flake Truffles, Pralines, Bars, Hollow Figures and more innovative products like Medaillons, Truffines and Chocolate Donuts. We also carry a No Sugar Added Bar Range.

The company has two plants in Belgium, where the chocolates are made and exported from. "The Belgian" reflects the traditional chocolate making expertise from

Belgium. We work together with exclusive distributors in over 70 countries with a view to creating a clear, unified brand presence. In our constant search for first-rate ingredients, quality is the highest requirement. Furthermore, BCG follows the international standards and guidelines. In January 2011, BCG was the first Belgian chocolate company to obtain the A star level of the international BRC food standard. This is the highest possible standard to obtain.

VDS

VDS produces vitamin and mineral premixes, additives and animal feed specialties for the production of livestock and aqua feed. Feed producers are in need of premixes and additives which are tailor made to their requirements. But that is often only the start in the process of achieving consistent and better results. We help and analyse the market situation, define the problem areas and offer the possible solutions, up to sending management and production assistance if needed.

In Belgium we have a large experience as premix and service provider for the pig, poultry and dairy production market. Worldwide, VDS is producing poultry feed and

concentrates at several production sites of local partners in Western Africa. We also produce aquaculture feed under the brand VDS Crustocean Feed, a high quality shrimp feed, following our strict standards and production protocol, in feed factories in Iran and Egypt. The feed is destined both for the local market and for export markets in the region.

BELGIAN FOREIGN TRADE AGENCY

The Belgian Foreign Trade Agency is a public body with legal status. It was set up through the Cooperation Agreement concluded between the Belgian federal government and the three Belgian regional governments in 2002.

The Agency is run by a Board of Directors. Its Honorary President is His Royal Highness Prince Philippe of Belgium.

The Agency's main tasks are to:

- Provide documentation on foreign markets.
- Organise joint economic missions.
- Collect, organise and circulate information, studies and documentation on external markets on behalf of the regional export promotion organisations.

The regional export organisations (AWEX, Brussels Invest & Export and FIT) remain the primary contact points for Belgian companies.

BRUSSELS INVEST & EXPORT MINISTRY OF THE BRUSSELS-CAPITAL REGION

BRUSSELS invest & export is the foreign trade and investment agency of the Brussels-Capital Region. It aims to promote the internationalisation of the Brussels economy. Brussels is not only the Belgian and European capital, home of NATO and EU headquarters, but it is also a large business centre at the heart of the European market.

BRUSSELS invest & export assists Brussels companies operating in foreign markets. Almost ninety economic and trade commissioners across all continents provide free guidance to SMEs, target potential local prospects and partners, organise matchmaking visits... Concrete initiatives in Brussels and abroad include trade missions, contact days, buyers' invitations and collective stands at

international trade fairs. Brussels exporters are listed in a database, www.brussels-exporters.be, which can be accessed by all foreign companies searching for partners.

Another mission of BRUSSELS invest & export is to attract foreign companies to Brussels and to provide them with support, should they decide to locate their business in the Region.

To enable investors to assess the benefits of establishing in the capital, BRUSSELS invest & export offers them a "Welcome Package" which includes equipped office space at no cost for a three-month period.

FLANDERS INVESTMENT & TRADE (FIT) – GOVERNMENT OF FLANDERS

The Flanders Investment & Trade agency promotes sustainable international business, in the interest of both Flanders-based companies and overseas enterprises.

Whatever sector you are involved in, Flanders Investment & Trade will help you establish contact with the Flemish companies you are looking for.

This includes not only products or services you may be sourcing, but also various types of business relationships, from joint ventures to technology transfers.

At another level Flanders Investment & Trade enhances Flanders' position as the gateway to Europe for inward

investors. The Agency identifies, informs, advises and supports overseas enterprises by establishing production and research facilities, contact centers, headquarters, logistics operations and the like in Flanders, the northern region of Belgium.

This broad focus on international entrepreneurship, involving outward trade as well as inward investments, requires not only a thorough knowledge of Flemish economy, but also an extensive network outside of Flanders.

We have just that for you. Do visit our website and discover our worldwide network. With over 90 offices we are bound to be conveniently located near you, wherever you are.

GOVERNMENT OF THE BRUSSELS-CAPITAL REGION

Cabinet of Minister Benoît Cerexhe Economy - Employment - Scientific Research - Commerce - Foreign Trade

Since entering office as Economy and Employment Minister of the Brussels-Capital Region in July 2004, Minister Benoît Cerexhe has endeavoured to increase the economic potential of the Brussels Capital Region and spent considerable effort to make it more attractive to investors and companies. By reviewing and simplifying the economic expansion legislation, Benoît Cerexhe has positioned Brussels as a leading city for business, open to new forms of entrepreneurship.

In 4 years time, over 40,000 net jobs have been created in the Brussels-Capital Region. Brussels also ranks

amongst the cities with the highest rate of business starts per habitant, despite the economic crisis.

In July 2009, Benoît Cerexhe was re-elected and remained in office as Economy and Employment Minister. He will continue his policy to attract businesses and bring jobs to Brussels. During the constitution of the present Government of the Brussels-Capital Region, foreign trade was added to Benoît Cerexhe's attributions. This new competence will allow him to further support Brussels businesses in their development by aiming the foreign trade policy at Brussels entrepreneurs looking for new markets.

PROVINCE OF EAST FLANDERS

The Provincial Government of East-Flanders is maintaining a longstanding structural cooperation with Vietnam for more than 10 years. Vietnam is a priority country in the international cooperation of East Flanders. The main focus of this cooperation is to support Flemish companies in their search for economic opportunities and to assist Flemish knowledge centres looking for cooperation in Vietnam. East Flanders organised 3 economic missions to Vietnam, established a number of successful projects such as currently a horticulture project in Lam Dong province and supported several projects in the field of aquaculture. On different occasions impor-

tant delegations of Vietnam visited East Flanders such as during the participation of Vietnam as guest country at the 61st edition of Accenta - International trade fair of Flanders in 2006. In 2007 the Flanders Economic Office (FEO) was established as part of the Royal Belgian Consulate in HCMC and has been granted the full support of the Province of East Flanders from the start. The FEO works as a business centre at the disposal of Flemish companies and coordinates the activities of the province of East Flanders in Vietnam.

WALLOON REGION

Cabinet of the Minister of Economy and Vice-President of the Walloon Government

The Minister of Economy and Vice-President of the Walloon Government, Jean-Claude Marcourt, and his cabinet are charged with overseeing the economic and social development of Wallonia.

To the five clusters of competitiveness created under the Marshall Plan, with the goal of creating a solid economic and industrial environment (Transport and Logistics, Healthcare, Mechanical Engineering, Agro-Industry, Aeronautics and Space Industry), has been added a sixth one dedicated to the green economy. Sustainable development is ripe with real opportunities for Wallonia to enhance its economy. In light of this belief, special attention will be paid to SME's and new technologies, which are also competencies of Minister Marcourt.

Located in the center of Europe, at the converging point of major roads, rivers, railways and air routes, Wallonia benefits from a high quality labor force and ample free spaces for the expansion of new economic activities; all advantages that Minister Marcourt, his team - in close collaboration with the Wallonia Foreign Trade and Investment Agency (AWEX) - will assert when promoting the benefits of Foreign Trade to the Region.

Cécile LIEGEOIS MANAGER

WALLOON REGION - WALLONIA-BRUSSELS INTERNATIONAL (WBI)

The WBI is a public administration which is responsible for the international relations of Wallonia-Brussels. It is the instrument that implements international policy of the French Community of Belgium, the Walloon Region and the French Community Commission of the Brussels-Capital Region.

Its activities are situated in the context of bilateral relations. The objectives of these bilateral relations are as follows:

to support creative resources (cultural, business) of Wallonia-Brussels and contribute to the development of our regions;

- to promote the constituent parts of Wallonia-Brussels as entities authorised to act in an international capacity;
- to defend the values and interests of each part and to promote their competencies in a spirit of co-operation and by helping each other.

The framework agreement between the Socialist Republic of Vietnam and the 3 federated entities (French Community, Walloon Region, COCOF) was signed in 2002

WALLOON REGION - WALLONIA FOREIGN TRADE AND INVESTMENT AGENCY (AWEX)

The Wallonia Foreign Trade and Investment Agency (AWEX) is the Wallonia Region of Belgium's governmental agency charged with promoting foreign trade and attracting foreign investment. The agency has a worldwide network of 107 economic and trade representatives. AWEX has been certified ISO 9001 since April 2002.

As a foreign trade agency, AWEX carries out a mission focused on promoting and informing the public of the many benefits of both Wallonia and its foreign business community. AWEX assists buyers, decision-makers, importers and foreign prospects by providing information on Wallonia's export potential. As an export partner for

Wallonia-based companies, AWEX offers a wide range of export-oriented services and activities (market surveys, organisation of trade missions, trade show pavilions, export incentives, etc.).

As a foreign investment agency, AWEX has the overall responsibility for attracting foreign investment to Wallonia. This includes seeking out and providing information to potential foreign investors. The Agency also offers a pro-active follow-up service to investors already established in Wallonia. In addition, it is in charge of identifying new foreign investors for the acquisition of industrial sites under a restructuring process.

ECONOMIC PROFILE OF BELGIUM, THE HEART OF EUROPE

Belgium is a federal Kingdom comprised of three regions (the Flemish Region, the Walloon Region and the Brussels-Capital Region) and three communities (the Flemish, the French and the German Communities).

Belgium has an estimated population of 10.9 million inhabitants (2011) and is one of the most densely populated countries in Europe. Brussels is the 'Capital of Europe', playing host to the headquarters of the European Commission, the Council of Ministers and the European Parliament. Other major international organisations, such as NATO, are also located in Brussels. As a result, Brussels ranks as the world's number two city (after Washington, D.C.) in terms of the number of accredited journalists, and fourth in terms of the number of international meetings and seminars held.

With a surface of 30,500 km², Belgium is one of the smallest member states of the European Union. Nevertheless, it is a significant player in the world economy. GDP reached €340.4 billion in 2009 and €354.4 billion in 2010. In line with global deceleration, growth drastically slowed towards the end of 2008, and was negative in 2009 (-2.7%). In 2010, the Belgian economy recovered and a growth rate of 2.3% was recorded.

Despite the recent downturn, Belgium is a high income country, with a Gross National Income (GNI) per capita of US\$45,420 in 2010 (World Bank data).

According to the World Trade Organization (WTO), in 2010, Belgium was the 9th leading exporter of merchandise goods and the 15th leading exporter of commercial services. In 2010, Belgium's share in world merchandise exports was 2.7%. With a share of 2.5% in world imports of goods, Belgium ranked 12th among world importers.

For four years, Belgium has been holding the top position of the annual KOF Index of Globalization, which measures the economic, social and political dimensions of globalization.

In regards to Foreign Direct Investments, in 2010 Belgium ranked number 4 in the world with US\$62.0 billion. The continued presence of TNC (coordination centres), as well as new tax incentives that entered into force in January 2006 (notional interest deduction) play an important role.

TRADE RELATIONS WITH VIETNAM

Belgium is indeed your ideal partner because of its strategic location in the heart of Europe, its flourishing economy with stable growth and the unwavering confidence of consumers and investors.

BELGIAN EXPORTS TO VIETNAM	2008	12 months	€ 165.1 million
	2009	12 months	€ 185.1 million
	2010	12 months	€ 203.2 million
	2011	9 months	€ 162.8 million

BELGIAN IMPORTS FROM VIETNAM	2008	12 months	€ 907.4 million
	2009	12 months	€ 669.5 million
	2010	12 months	€ 754.8 million
	2011	9 months	€ 520.3 million
